Invify Logo × FCMB

SPEAKER 1: OLUWELE TEMITOPE • OPENING

Smart mPOS & Digital Collections

Connecting school and merchant operations with FCMB acquiring infrastructure and secure managed hardware.

PLATFORM	HOST COMPANY	TARGET
Invify Technologies	IIPS Limited	FCMB Merchant Acquiring

SPEAKER 1: OLUWELE TEMITOPE

Executive Session Structure

SECTION 01

Foundation & Problem

Merchant payment disconnect.

Lead: Aramide Adebayo (CEO)

SECTION 02

Product & School Demo

Live fee billing workflows.

Lead: Saliu Sheriffdeen

SECTION 03

Smart mPOS & Dotroid

Hardware and kiosk security.

Lead: Adekunle Matthew

SECTION 04

Settlement & Ask

FCMB acquiring partnership.

Lead: Adewunmi & Helen

SPEAKER 2: ARAMIDE ADEBAYO (CEO)

Company Overview & Unified Proposition

Integrated Systems (IIPS)

Parent technology development company based in Lagos, engineering commercial payment applications.

Invify Platform

End-to-end merchant invoicing, student roster billing, and automated multi-channel payment reconciliation.

FCMB Partnership Goal

Combining bank acquiring infrastructure, TIDs, and settlement rails with our managed counter ecosystem.

SPEAKER 2: ARAMIDE ADEBAYO (CEO)

The Core Merchant Disconnect

Conventional POS Operation

Terminal accepts ₦100,000 without operational metadata.

No Context: Payer identity unknown at counter.
No Billing Link: Cannot verify outstanding balances.
Manual Audits: End-of-month paperwork reconciliations.

Invify Connected Model

Payment transaction binds directly to student records.

Identity Bound: Linked to student and class term.
Automated Splits: Tuition, books, and uniforms tracked.
Instant Settlement: Real-time double-entry ledgers.

SPEAKER 3: SALIU SHERIFFDEEN

Platform Overview: Connected Modules

Fee & Academic Setup

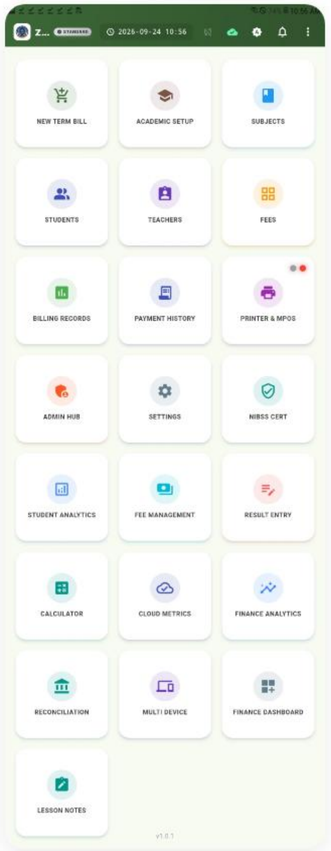

Class tiers, student registries, and term billing structures.

Smart mPOS & Thermal Printing

Card reader pair, physical receipt issuance, and cash logs.

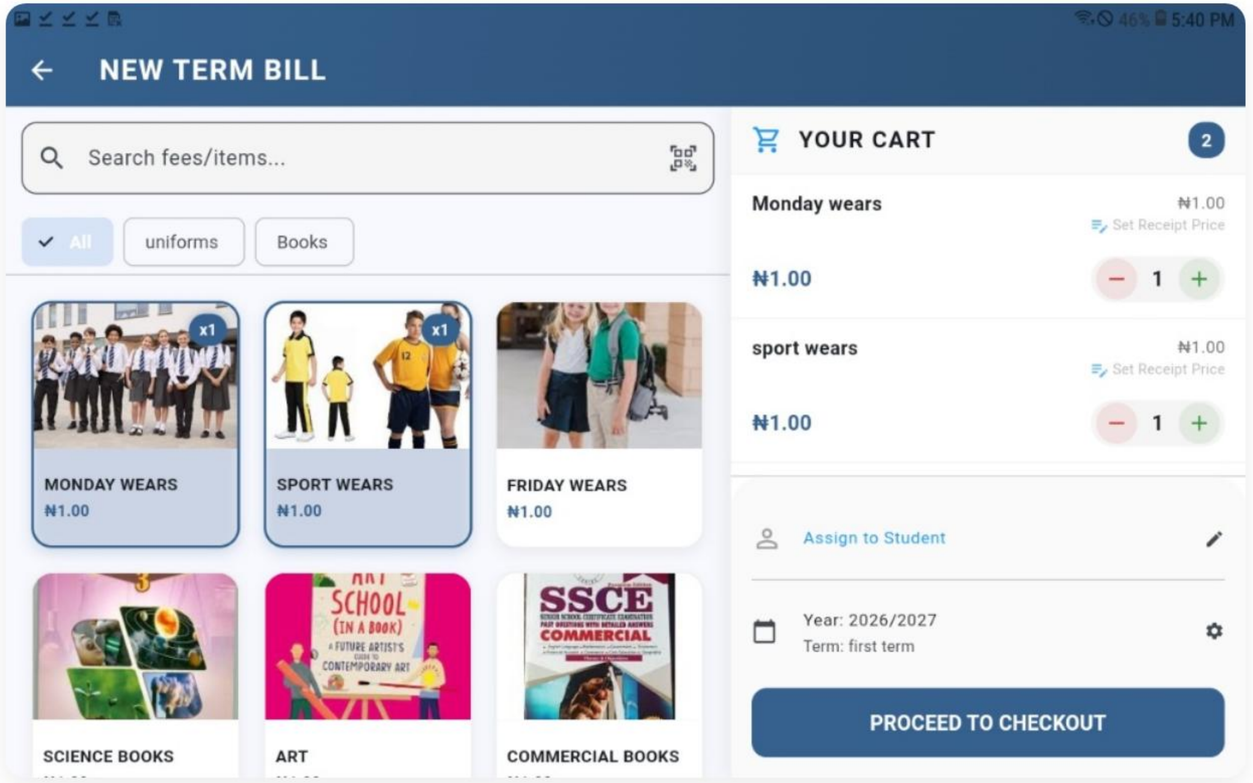

Reconciliation & NIBSS Cert Hub

Centralized transaction audit trail and compliance gateway.

SPEAKER 3: SALIU SHERIFFDEEN

Primary Use Case: Educational Billing

Itemized Cart Management

Tuition, uniforms, textbooks, and extracurriculars in one checkout.

Roster Binding

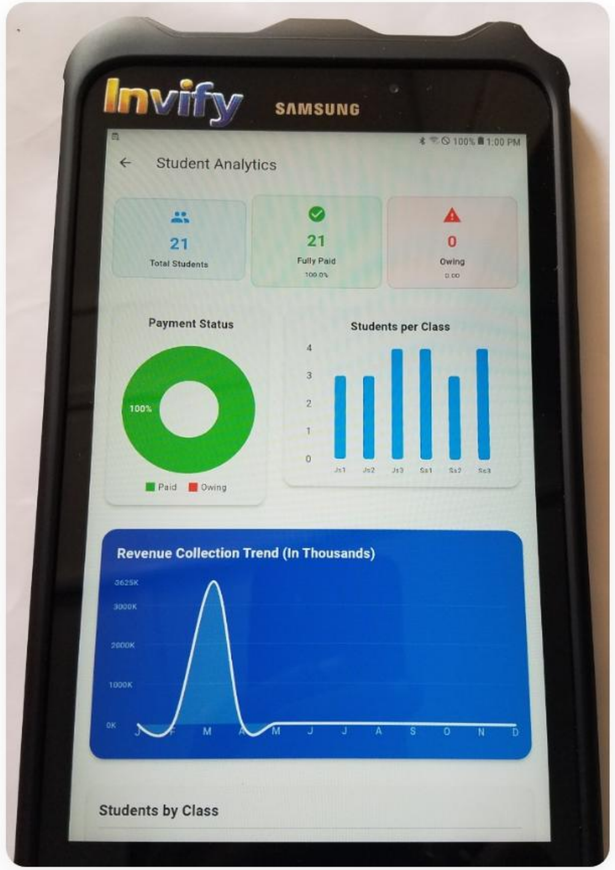

Instant assignment to registered student or external payer profile.

Custom Discounts & Terms

Multi-child concessions and flexible installment schedules.

SPEAKER 3: SALIU SHERIFFDEEN

Real-Time Collection Analytics

100%

Paid Status Rate

Zero

Unresolved Deficits

Class Compliance Breakdowns

Immediate visibility into fee collection distributions across junior and senior secondary levels.

Expected vs. Recovered Trends

Real-time tracking of term revenue targets against actual funds cleared.

SPEAKER 3: SALIU SHERIFFDEEN

Beyond Schools: Multi-Sector Scalability

Schools & Academies

Primary initial deployment target. Seasonal billing, term levies, and roster reconciliation.

Retail & Hospitality

Field-tested at Odies Bar, Ikorodu. Quick inventory selection, counter receipts, and shifts.

Service Providers

Artisans and trade workshops. Job quotes converted into immediate card payments.

SPEAKER 4: ADEKUNLE MATTHEW

Smart mPOS: Purpose-Built Hardware Kit

Samsung Enterprise Tablet

High-clarity Android touchscreen running full Invify management software.

AISINO VM30 Card Reader

Vanstone Electronic EMV Chip & PIN secure payment terminal.

Fast Thermal Printer

High-speed Bluetooth receipt printing for parent records.

SPEAKER 4: ADEKUNLE MATTHEW

Device Testing & Compatibility

15+

Devices Evaluated

End-to-end sandbox and field testing completed.

3

POS Brands Validated

Including AISINO Vanstone electronic architecture.

v9+

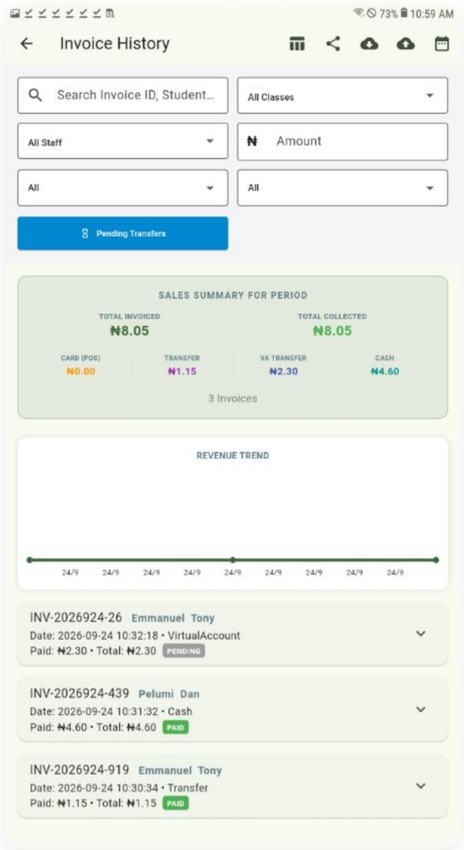

Android OS Support

Broad operating system compatibility across models.

Certification Ready: Software structure prepared for ISO messaging, NIBSS certification, and direct FCMB terminal key injection protocols.

SPEAKER 5: ADEWUNMI ODULEYE

Multi-Channel Payment Verification

Dedicated Virtual Accounts

Instant reconciliation for parents paying through mobile banking apps.

Smart mPOS Card Clearing

Direct debit card processing at counter with immediate authorization.

Automated Requery & Cash Match

Resolves pending transfers instantly, keeping accounting balanced.

SPEAKER 5: ADEWUNMI ODULEYE

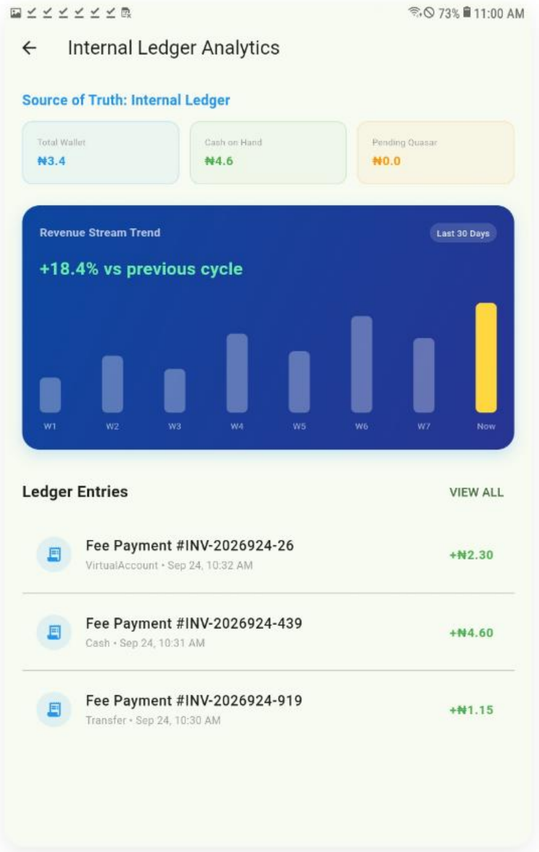

Single Source of Truth: Internal Ledger

Double-Entry Ledger Tracking

Every fee payment automatically splits across wallet balances, cash reserves, and acquiring channels.

Real-Time Margin Auditing

Real-time tracking of transaction fees, MSC shares, and merchant disbursements with zero ambiguity.

SPEAKER 5: ADEWUNMI ODULEYE

Six-Step Settlement Lifecycle

01

Create Bill

Invoice assembled on Invify.

02

Link Roster

Student ID bound to transaction.

03

Card / VA

Customer executes payment.

04

Acquiring

FCMB rails process payment.

05

Settlement

Funds settle in merchant account.

06

Auto-Match

Invify reconciles student ledger.

SPEAKER 4: ADEKUNLE MATTHEW

Dotroid: Security & Managed Device Layer

Kiosk & Launcher Control

Locks tablet strictly to business apps. Blocks browsing, unauthorized APKs, and tamper hazards.

Fleet Heartbeat & Telemetry

Monitors battery status, software versions, network connectivity, and terminal health.

Remote Lock & Wipe

Instant geo-location tracking and cryptographic key de-provisioning upon terminal theft or risk.

SPEAKER 4: ADEKUNLE MATTHEW

Why the Tablet + Dedicated mPOS Model?

Enhanced Ergonomics

Conventional POS touchscreens are too cramped for multi-student tuition rosters, complex invoices, and detailed analytics. Tablets offer operational comfort.

Isolated Cryptography

Card PIN entry stays strictly on the AISINO VM30 hardware reader. Plaintext credentials never touch the host tablet, simplifying PCI-DSS boundaries.

Cost-Effective Scaling

Replacing a damaged screen does not require discarding certified acquiring hardware, drastically lowering long-term maintenance costs.

SPEAKER 6: OKAFOR HELEN

Target Market Opportunity

Private Education

Tier 1 Priority

Over 18,000 registered private schools across Lagos and Ogun State alone seeking automated term collections.

Retail & Merchants

Tier 2 Priority

Bars, pharmacies, and mid-sized distributors needing inventory tied directly to bank card terminals.

Artisans & Trades

Tier 3 Priority

Mechanic hubs and fabrication workshops upgrading from personal bank transfers to formal invoices.

SPEAKER 6: OKAFOR HELEN

Commercial Revenue Model

REVENUE 01

Monthly SaaS

Subscription per merchant for student portal and Dotroid MDM.

REVENUE 02

Hardware Kit

Outright lease or sale of tablet, AISINO mPOS, and printer bundle.

REVENUE 03

Acquiring Share

Revenue split with FCMB on processed card transaction volumes.

REVENUE 04

Enterprise SLA

Custom ERP integration and on-site support for school chains.

SPEAKER 6: OKAFOR HELEN

Strategic Alignment with FCMB

What FCMB Delivers

- Regulated acquiring rails & settlement.
- Terminal Identification (TID & MID).
- Commercial merchant settlement accounts.
- Payment certification & compliance backing.

What Invify Delivers

- Sticky low-cost deposit growth for FCMB.
- Specialized school and merchant software.
- Zero terminal dormancy via business workflows.
- Managed fleet security via Dotroid MDM.

SPEAKER 6: OKAFOR HELEN

Controlled Merchant Pilot Plan

PHASE 01

Alignment

Architecture, APIs, and TID parameters.

PHASE 02

Integration

Connect Invify to FCMB card acquiring switch.

PHASE 03

Key Injection

Certify AISINO VM30 security keys.

PHASE 04

Field Pilot

Deploy 15–20 units to selected schools.

PHASE 05

Commercial Scale

Review settlement metrics & expand.

SPEAKER 6: OKAFOR HELEN

Execution Request to FCMB

01

Acquiring Rails

MID and TID provisioning for Invify Smart mPOS deployments across pilot schools.

02

Switch APIs

Direct API/SDK hooks for transaction authorization, requery endpoints, and webhooks.

03

Hardware Certification

Terminal key-injection and certification path for the AISINO VM30 device suite.

SPEAKER 6: OKAFOR HELEN

Presenting Team

Oluwele Temitope
Opening & Partnerships
Strategic positioning and executive dialogue.

Aramide Adebayo
Chief Executive Officer
Vision, product architecture, and IIPS lead.

Saliu Sheriffdeen
Product Engineering
Software workflows and school billing lead.

Adekunle Matthew
Hardware & Dotroid MDM
Terminal integration and security layers.

Adewunmi Oduleye
Payments & Settlement
Financial flows, ledgers, and reconciliation.

Okafor Helen
Commercial Strategy
Market scaling and commercial partnerships.

THANK YOU • FCMB PARTNERSHIP SESSION

Let’s Power Modern Merchant Collections

Ready to proceed with live hardware demonstrations and technical workstream alignment.
