

A5 STANDARD · SCHOOL & ACADEMY EDITION

Invify School Mode Manual

Comprehensive Academic, Bursary, Student Billing, Grading, Finance & Analytics Operations

Welcome to the **Invify School Mode Operational Manual**. Specially engineered for Nursery, Primary, Secondary schools, and colleges. This manual provides exhaustive, step-by-step guidance on **Device Onboarding, System Setup & Branding, All Fee Payment Channels** (Virtual Accounts, Card POS, Cash, Transfer), **New Term Bill POS & Checkout, Fee Structuring & Product Tools, Student Profile 360° Hub, Invoice History & Period Audits, Finance Dashboard & Treasury, Student Analytics, Digital Grading, and AI Lesson Notes**.

Table of Contents

- 1. Device Onboarding & Linking
- 2. School Navigation & Status Bar
- 3. 19-Tile Master Dashboard Reference
- 4. System Setup & Institutional Branding
- 5. Fee Structuring, Catalog & Product Tools
- 6. New Term Bill POS & Invoice Preview
- 7. Fee Payments & Virtual Accounts (Quasar)
- 8. Parent Management & Family Billing Hub
- 9. Student Profile 360° Hub
- 10. Invoice History, Period Summary & Auditing
- 11. Finance Dashboard, Treasury & Withdrawals
- 12. Student Analytics & Revenue Trends
- 13. Academic Setup, Classes & Rosters
- 14. Result Entry & Digital Grading
- 15. AI Lesson Notes Curriculum Wizard
- 16. Billing Records & Debt Ledgers
- 17. Thermal Receipt Printers & MPOS
- 18. Standard Operating Procedures (SOP)
- 19. Troubleshooting & FAQ

1. Device Onboarding & Linking

The onboarding flow activates your school terminal, verifies administrative identity, captures location telemetry, and links hardware to your school cloud profile.

Step-by-Step School Onboarding Sequence:

1. **Step 0: Welcome & Existing Profile Linking:** Register a new institution or tap "*LINK DEVICE TO EXISTING PROFILE*". Tapping the link button opens the camera to scan the pairing QR code displayed in your Web Admin Dashboard (under *Fleet > Pair Device*), instantaneously downloading all classes, students, and fee templates.
2. **Step 1: Administrator & School Identity:** Enter Administrator First Name, Last Name, School Email Address, Web Password (minimum 9 characters including uppercase, lowercase, number, and symbol), School Name, Contact Phone Number, and optional Agent Code.

Live Email Availability Guard:

When navigating away from the email field or clicking "*NEXT STEP*", the app validates whether the email already exists. If registered, progression to Step 2 is blocked with an alert linking directly to your existing school profile.

3. **Step 2: Campus Address & Telemetry:** Enter Campus Street Address, Country, State, and LGA. The system records GPS coordinates and hardware fingerprinting for offline local network multi-terminal sync across bursary counters.
4. **Step 3: Plan Selection & OTP Verification:** Choose between a **Free 3-Day Trial** or enter an official **16-Digit School Activation Code**. Invify transmits a 6-digit OTP code to your registered Email or WhatsApp. Enter the code to activate your license.

2. School Navigation & Status Bar

INDICATOR	VISUAL STATE	ADMINISTRATIVE FUNCTION
School Identity	Crest + School Name	Displays institution branding printed on fee receipts and report cards.
License Tier	STANDARD / PRO	Indicates active software edition. Tap to view trial days or license renewal.
Academic Clock	YYYY-MM-DD HH:mm	Synchronized timestamp guaranteeing official bursary audit logs.
Multi-Till Sync	✓ SYNCED	Peer-to-peer sync across bursar terminals, principal desk, and admin counters.
Bursary Lock	Shield Icon	Instant one-tap lock screen preventing unauthorized billing access.

3. 19-Tile Master Dashboard Reference

The School Mode dashboard provides a 19-tile operational hub covering bursary billing, academic management, student rosters, parent directory, grading, and executive analytics:

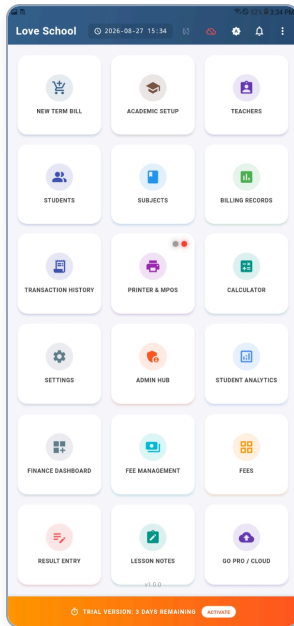

Figure 1: Invify School Mode Dashboard — Comprehensive 19-tile grid for billing, academic configuration, grading, parent management, analytics, and bursary administration.

TILE NAME	SHORTCUT / ICON	PRIMARY FUNCTION & BURSARY ACTION
New Term Bill	 Bill Cart	Landscape POS billing register to bill students for tuition, books, and uniforms.
Academic Setup	 Grad Cap	Configure Academic Sessions (e.g. 2026/2027), Terms (1st, 2nd, 3rd), Classes, and Payment Sharing Rules.
Teachers	 Teacher ID	Faculty directory, subject allocations, and teacher access credentials.
Students	 Student Group	Student roster, admission numbers, parent phone contacts, and debt status.
Parents	 Family Restroom	Centralized parent & guardian directory, family fee consolidation, parent virtual account provisioning, multi-child payment allocation, and credit wallet mapping.
Subjects	 Subject Book	Master subject registry by class level (e.g. English, Mathematics, Basic Science).
Billing Records	 Bar Ledger	History of all generated term bills, payment tracking, and balance reminders.

TILE NAME	SHORTCUT / ICON	PRIMARY FUNCTION & BURSARY ACTION
Transaction History	 Receipt Audit	Chronological financial payment audit ledger filterable by channel and bursar.
Printer & MPOS	 Printer Icon	Pair thermal receipt printers and Bluetooth MPOS card terminals for card payments.
Calculator	 Number Pad	Desktop bursary calculator for instant fee adjustments and cash math.
Settings	 Gear Icon	School name, crest upload, fee policies, grading scales, and staff PINs.
Admin Hub	 Admin Badge	Principal approvals, fee waiver authorizations, and audit closeouts.
Student Analytics	 Student Chart	Collection graphs, fee payment ratios (paid vs owing), and class enrollment.
Finance Dashboard	 Hub Icon	Executive bursary overview: tuition revenue, expenses, and net reserves.
Fee Management	 Money Bag	Discount rules, scholarship allocations, and installment payment terms.
Fees	 Fee Catalog	Fee structure catalog: school fees, books, uniforms, PTA, and laboratory levies.
Result Entry	 Edit Exam	Input continuous assessment (CA) and terminal examination scores.
Lesson Notes	 Clipboard AI	AI-powered curriculum lesson planner and teacher note submission workflow.
Go Pro / Cloud	 Cloud Rocket	Upgrade school plan, cloud sync telemetry, and automated remote backups.

4. System Setup & Institutional Branding

The **System Setup** module (accessible under Settings > System Setup) allows the Principal or School Bursar to configure regulatory information, upload official school crests, and customize receipt print layouts.

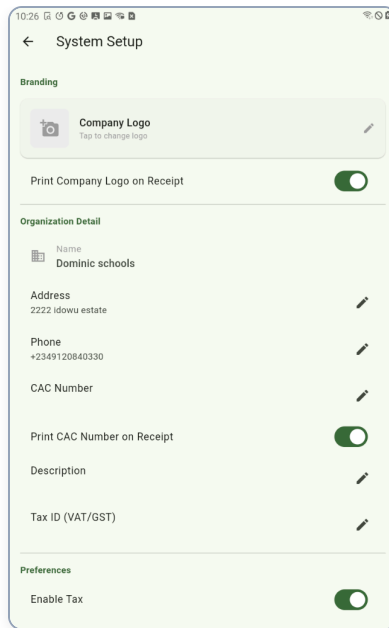

Figure 2: System Setup — Official school branding, crest image uploader, CAC registration number, and receipt toggles.

CONFIGURATION BLOCK	PARAMETERS & CONTROLS	RECEIPT & SYSTEM IMPACT
Branding	• Company/School Logo: Tap camera icon to select and crop school crest. • Print Company Logo on Receipt: Toggle switch (ON/OFF).	When enabled, your monochrome bitmap crest prints cleanly at the top of 58mm/80mm thermal receipts and PDF student report cards.

CONFIGURATION BLOCK	PARAMETERS & CONTROLS	RECEIPT & SYSTEM IMPACT
Organization Detail	• Name: Official registered institution name (e.g. Dominic Schools). • Address: Physical campus location. • Phone: Bursary support line. • CAC Number: Corporate Affairs Commission RC/BN code. • Print CAC on Receipt: Toggle switch. • Tax ID (VAT/GST): State/Federal tax identification code.	Guarantees that generated term bills and payment slips comply with official academic auditing standards and can be verified by parents and banks.
Preferences & Tax	• Enable Tax: Toggle switch. • Tax Rate (%): Percentage rate (e.g. 7.5% or 15%). • Confirm Fees on Selection: Prompts bursar to verify item cost.	Automatically calculates sales tax or levies on applicable school bookstore items and extracurricular fees when enabled.

5. Fee Structuring, Catalog & Product Tools

Tap **Fees** on the dashboard to access the **Fee Structure** management console. Here, administrators organize levies into standardized categories, view financial tools, and track product catalog totals:

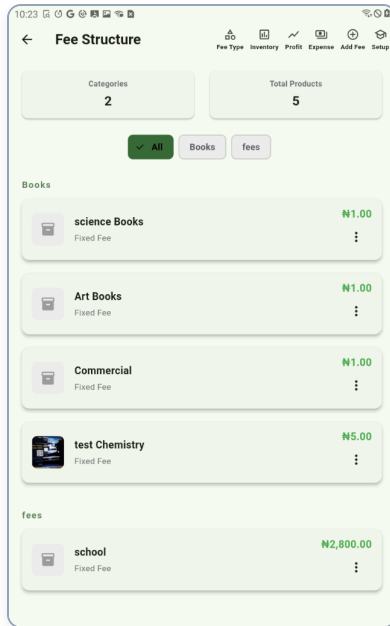

Figure 3: Fee Structure Screen — Top operational toolbar (Fee Type, Inventory, Profit, Expense, Add Fee, Setup), category filter chips, and fixed fee catalog.

TOP ACTION TOOLBAR

- **Fee Type:** Manage master fee classifications (Tuition, Books, Uniforms, PTA, Boarding).
- **Inventory:** Real-time valuation and physical stock counters for textbooks and uniforms.
- **Profit:** Revenue vs cost analysis on school merchandise and book sales.
- **Expense:** Log campus running costs (diesel, lab reagents, stationery) directly against school fee revenue.
- **Add Fee:** Create a new billable item with fixed or variable pricing rules.
- **Setup:** Direct shortcut to school fee policies and term billing rules.

CATALOG FILTERS & SUMMARY METRICS

- **Metric Counters:** Summary cards display total active **Categories** and total configured **Products**.
- **Category Filter Chips:** Instant one-tap filtering between All, Books, fees, and custom categories.
- **Item Actions:** Each fee card displays name, thumbnail photo, fee classification (e.g. *Fixed Fee*), and price. Tap the 3-dots icon to edit price, delete item, or set default billing tags.

6. New Term Bill POS Terminal & Invoice Preview

The **New Term Bill** screen provides an interactive, dual-pane landscape billing register:

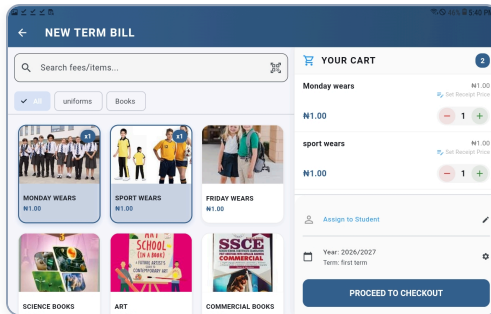

Figure 4: New Term Bill POS Screen — Left pane displays searchable fee and inventory items with category filters; right pane displays the student bill cart, academic session, and checkout controls.

How to Issue a Term Bill:

1. Tap **New Term Bill** from the dashboard.
2. Select category tabs (e.g. *All, Uniforms, Books, Tuition*).
3. Tap required items (e.g. *Monday Wears, Sport Wears, Science Books*) to add to the cart. Adjust quantities with + / -.
4. Tap **Assign to Student** in the cart pane and select the enrolled student.
5. Select the **Academic Year** (e.g. 2026/2027) and **Term** (e.g. First Term).
6. Tap **PROCEED TO CHECKOUT** to review the branded invoice preview modal.

Invoice Preview & Multi-Channel Settlement

Tapping *PROCEED TO CHECKOUT* launches the **Invoice Preview** modal, enabling the bursar to verify the itemized charges, calculate sales tax, and select the preferred payment channel:

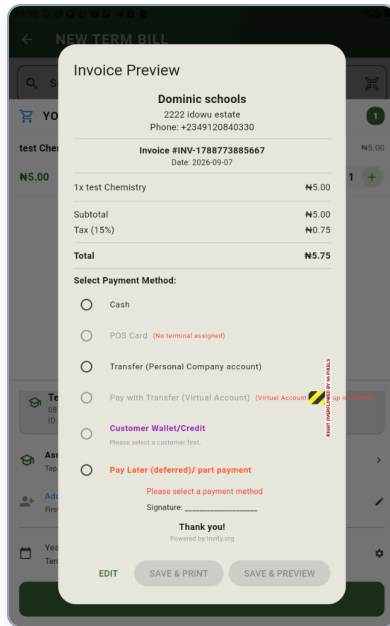

Figure 5: Invoice Preview Checkout Modal — Displays school header, line-item subtotal, tax calculations, all 6 payment channels, and print triggers.

6 SETTLEMENT CHANNELS

- **Cash:** Cash received directly into the bursary drawer float.
- **POS Card:** Debit/credit card payment processed via Bluetooth MPOS.
- **Transfer (Company Bank Account):** Direct transfer to the institution's commercial account.
- **Pay with Transfer (Virtual Account):** Dynamic automated account with instant webhook confirmation.
- **Customer Wallet/Credit:** Prepaid fee credit or scholarship bursary ledger.
- **Pay Later (Deferred) / Part Payment:** Record enrollment immediately while carrying forward the balance.

ACTIONS & RECEIPT PRINTING

- **EDIT:** Return to the cart to adjust quantities or remove items.
- **SAVE & PRINT:** Save the invoice locally, push to cloud sync, and immediately print dual 58mm/80mm thermal receipts.
- **SAVE & PREVIEW:** Generate a print-ready digital PDF invoice formatted for WhatsApp or email dispatch to parents.

7. Fee Payments & Virtual Accounts (Quasar Gateway)

Invify eliminates manual bank teller reconciliation through intelligent automated settlement channels:

1. DYNAMIC VIRTUAL ACCOUNTS (QUASAR GATEWAY)

When issuing a term bill, Invify generates a dedicated 10-digit account number (e.g. Wema/Providus/Titan) unique to that student's bill. Parents transfer fees via any mobile banking app or USSD. Invify's webhook listener automatically verifies incoming funds within seconds, marks the bill **PAID**, and sends an automated WhatsApp confirmation to the parent without bursar manual verification.

2. CARD (POS / MPOS) TERMINAL

Parents paying at the bursary counter with debit cards tap or insert their card into the paired MPOS terminal. On PIN authorization, the terminal returns an approval code that prints immediately on the official school fee receipt.

3. CASH COLLECTION

Bursar records exact cash tendered. The system logs cash into the physical bursary float and generates a stamped official receipt.

4. DIRECT BANK TRANSFER

For institutional bank deposits. Bursar records the parent's sender bank name, account name, and bank transaction reference code for internal audit matching.

Family-Level Canonical Virtual Accounts:

Instead of requiring parents with multiple children across nursery, primary, and secondary tiers to manage separate bank accounts, Invify can issue a single

Family Virtual Account

in the Parent Hub. Any inbound transfer automatically divides across all children with outstanding balances based on the institution's payment allocation policy, safely depositing any surplus into the family's

Parent Credit

wallet.

8. Parent Management & Family Billing Hub

Tap **Parents** on the dashboard to open the **Parent Management & Family Billing Hub**. Engineered specifically to eliminate the friction of multi-sibling fee billing and bursary reconciliation, this module consolidates student fee ledgers under their parent/guardian, provisions family-level Virtual Accounts, automates payment distribution, and manages parent credit.

FAMILY DIRECTORY & CLASS FILTER

The **Parents Roster** (/parent_list) gives bursars complete command over the school's parent population:

- **Instant Search:** Live search filtering across parent/guardian full names and contact telephone numbers.
- **Child Class Filter:** Dropdown to isolate parents with enrolled children in specific grades (e.g. *Nursery 2, Primary 4, JSS 1*) with a one-tap clear button.
- **Aggregated Family Debts:** Each family card displays the parent avatar, full name, number of enrolled children, represented class list, contact phone, Virtual Account (VA) badge, and the total family debt (color-coded red for owing, green for cleared).
- **Direct Profile Navigation:** Tap any family card to enter the full **Parent Profile 360° Console**.

FAMILY CANONICAL VIRTUAL ACCOUNTS

Stop sending multiple different account numbers to the same household:

- **One Dedicated Account Number:** Generate a single 10-digit NUBAN virtual account (Wema / Providus / Titan via Quasar Gateway) covering all children in the household.
- **Automatic Inbound Allocation:** Incoming bank transfers automatically trigger Invify's allocation engine, dividing funds across siblings with outstanding debt according to the school's active sharing policy.
- **Zero-Disruption Migration:** Any student-level virtual accounts previously generated remain permanently active as aliases. Deposits made to older numbers continue to route seamlessly to the family.

PARENT CONSOLE AREA

CONTROLS & METRICS

BURSARY OPERATIONAL FUNCTION

Header & Stat Cards

- **Parent Bio:** Full name, phone number, and email.
- **Total Outstanding:** Live sum of all linked children's unpaid debts (Red = owing, Green = cleared).
- **Parent Credit:** Balance of unallocated or prepaid family funds (Indigo).
- **Action Icons:** Thermal Statement Print & PDF Export.

Provides instant visual clarity on family finances. Tapping the printer icon outputs an itemized ESC/POS thermal statement; tapping the PDF icon generates and shares an official A5 Family Financial Statement.

PARENT CONSOLE AREA	CONTROLS & METRICS	BURSARY OPERATIONAL FUNCTION
Fund / Pay Outstanding	• Action Button: Primary filled action trigger. • Modal Channels: Cash, POS (Card), School Bank Account. • Dynamic Hint: Shows active share policy. • Remarks Field: Optional bursary memo.	Enables the bursar to collect or record fee payments directly at the parent level. Funds are immediately distributed to children's bills per the institution's allocation mode, with thermal and PDF receipts.
Map Parent Credit to Children	• Visible when Parent Credit > ₦0 and debt > ₦0. • Lists all children with unpaid fee balances. • Numeric input per child with real-time total calculator and balance capping.	Enables manual mapping of stored family credit to specific children. Built-in validation ensures no child receives more than their balance and total mapped does not exceed available credit.
Linked Children Cards	• Card per linked student. • Child Full Name & Admission Number. • Individual outstanding debt balance. • Tap navigation to Student Profile.	Allows bursars to immediately verify which children belong to this family, inspect individual fee components, and drill down into attendance, report cards, or termly bills.
Payment History & Allocations	• Chronological expandable payment cards. • Amount, Date/Time, Reference, and Channel. • Child Allocation Breakdown: Displays exact <i>Before</i> → <i>Allocated</i> → <i>After</i> balance per child. • [Print] & [PDF] duplicate receipt actions.	Comprehensive audit ledger. Expanding any payment reveals the exact kobo breakdown applied to each child, eliminating family billing disputes and providing complete accounting transparency.

Parent Payment Allocation Policies (5 Sharing Modes)

When a parent pays fees (via Virtual Account transfer, Cash, Card POS, or School Account), Invify applies the funds to children using the institution's configured **Parent Payment Share Mode**:

ALLOCATION MODE	RULE MECHANISM	HOW INCOMING FUNDS ARE DIVIDED ACROSS CHILDREN
Auto Share <i>(Default)</i>	PROPORTIONAL	Splits the payment proportionally across every child with outstanding fees based on their debt ratio. (e.g. If Child A owes ₦60,000 and Child B owes ₦40,000, a ₦50,000 payment assigns ₦30,000 to Child A and ₦20,000 to Child B). All math uses integer kobo to ensure zero rounding discrepancy. Excess beyond total debt becomes Parent Credit .
Lowest to Highest	WATERFALL ASCENDING	Pays the child with the smallest balance first until completely cleared, then cascades remaining funds to the next smallest. Ideal for maximizing the count of debt-free students cleared for exams. Surplus becomes Parent Credit .
Highest to Lowest	WATERFALL DESCENDING	Pays the child with the largest balance first until cleared, then moves downward. Prioritizes extinguishing the school's largest individual debt exposures. Surplus becomes Parent Credit .
First Matching Amount	EXACT MATCH	If a child owes the exact amount paid (e.g. parent transferred exactly ₦45,000 matching Child B's fee bill), the entire payment applies to that child. If no child has an exact match, the full amount is retained safely in Parent Credit for staff to map manually.
Management Decides	MANUAL DEPOSIT	Does not auto-apply to any child. The entire payment lands in the family's Parent Credit wallet. Bursary staff subsequently maps the credit to children using the <i>Map parent credit</i> tool according to specific parental instructions.

Where to Configure Payment Allocation Policies:

- **Academic Setup:**
Open *Academic Setup* on the dashboard and select the **Payments** tab (4th tab). Select your desired policy.
- **Settings:**
Open *Settings* and scroll to **School parent payments** to adjust the default policy at any time.

SOP: Mapping Parent Credit to Children

1. Open **Parents** on the dashboard and tap the target parent profile.
2. Confirm that **Parent Credit** displays an active balance (e.g. ₦25,000.00) and at least one child has an outstanding balance.
3. Tap the **Map parent credit to children** button.
4. In the dialog, enter the specific amount to assign to each child. The running sum updates dynamically, and inputs prevent exceeding individual child debts or available credit.
5. Tap **Map credit**. Invify writes the ledger entries, reduces child debts, decrements parent credit, and logs an audit transaction labeled "*Parent credit mapped*".

9. Student Profile 360° Hub

Tap **Students** on the dashboard and select any student to enter the **Student Profile 360° Hub**. This screen centralizes academic records, fee ledgers, guardian contacts, and dedicated account provisioning:

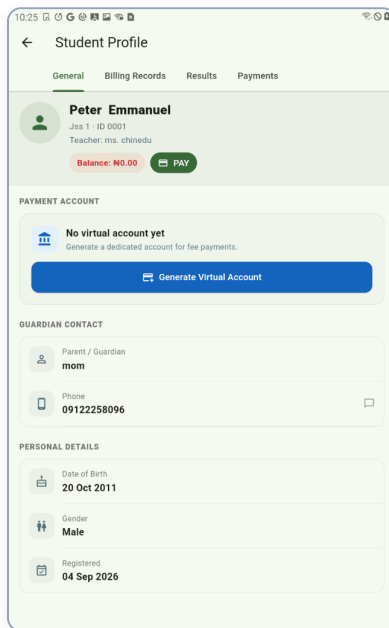

Figure 6: Student Profile Screen — 4-tab navigation (General, Billing Records, Results, Payments), dedicated Virtual Account generator, and instant PAY trigger.

PROFILE TAB / AREA	COMPONENT CONTROLS	OPERATIONAL FUNCTION
Header Banner	• Student Name (e.g. Peter Emmanuel) • Class & Admission ID (e.g. Jss 1 · ID 0001) • Form Teacher Allocation (e.g. Ms. Chinedu) • Balance Badge (e.g. Balance: ₦0.00) • [PAY] Action Button	Provides instant visual status of the student's standing. Tapping PAY opens an immediate checkout drawer to record school fees or book payments without leaving the student's file.
1. General Tab	• Payment Account: "Generate Virtual Account" button creates a dedicated bank account reserved exclusively for this student. • Guardian Contact: Parent/Guardian name, primary phone number, and direct SMS/WhatsApp launcher icon. • Personal Details: Date of Birth, Gender, and School Enrollment Date.	Enables one-tap parent communication and equips each student with an immutable virtual account that parents can save as a beneficiary in their mobile banking apps.
2. Billing Records Tab	List of all historical and current term invoices issued to this student with itemized fees, total billed, amount paid, and outstanding balance.	Allows the bursar to inspect debt breakdown, review past partial payments, and issue itemized statements of account.
3. Results Tab	Continuous Assessment (CA1, CA2) and Terminal Examination scores, computed GPA, position ranking, and teacher remarks.	Enables the academic director or class teacher to view cumulative grades and print branded termly report cards.
4. Payments Tab	Complete chronological ledger of all payments made by this student across Cash, POS, and Virtual Transfer channels.	Bursars can tap any historical payment to reprint duplicate thermal receipts or download signed audit receipts.

10. Invoice History, Period Summary & Auditing

Tap **Billing Records** or **Transaction History** to open the **Invoice History** control center. This screen provides comprehensive multi-dimensional filtering, financial summaries, and revenue curves:

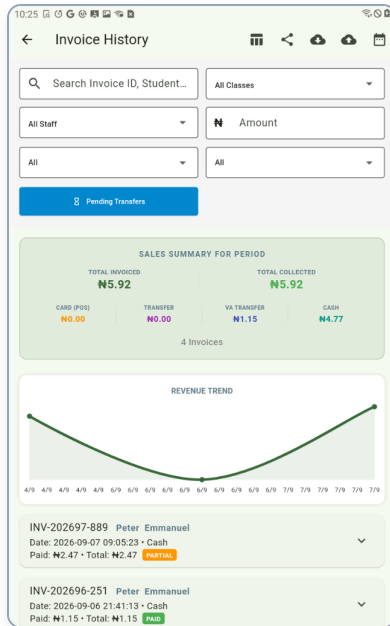

Figure 7: Invoice History & Auditing Console — Multi-parameter filter bar, Sales Summary by channel, Revenue Trend curve, and expandable invoice records.

ADVANCED FILTERING BAR

- **Search Bar:** Instant lookup by Invoice Number (e.g. INV-202697-889) or Student Name.
- **Class Selector:** Filter bills by grade (Creche to SSS 3).
- **Staff / Bursar:** Audit receipts generated by specific cashiers.
- **Amount & Status:** Filter by exact bill value, or status (**PAID** , **PARTIAL** , **UNPAID**).
- **Pending Transfers Button:** Dedicated blue trigger listing bank deposits awaiting Quasar clearance or manual supervisor verification.

SALES SUMMARY & REVENUE TREND

- **Period Totals:** Displays Total Invoiced vs Total Collected with exact bill count.
- **Channel Breakdown:** Itemizes income into **CARD (POS)**, **TRANSFER**, **VA TRANSFER**, and **CASH** floats.
- **Revenue Trend Curve:** Interactive daily timeline graph plotting revenue momentum across selected date ranges.
- **Top Utilities:** Switch to Table View, Share/Export PDF reports, backup all school billing data, and customize reporting date intervals.

11. Finance Dashboard, Treasury & Withdrawals

Tap **Finance Dashboard** to view executive liquidity, settlement balances, and withdrawal triggers:

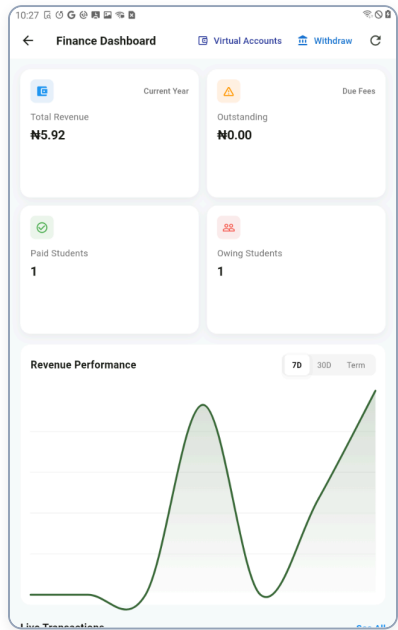

Figure 8: Finance Dashboard — Annual revenue counters, debtor totals, student payment compliance, and treasury performance curve.

DASHBOARD MODULE	METRICS / CONTROLS	EXECUTIVE ACTION
Top Action Bar	• Virtual Accounts: Master gateway settings. • Withdraw: Settlement payout button. • Refresh: Instant ledger balance sync.	Tapping Withdraw transfers cleared school fee balances collected via Virtual Accounts and POS directly into the school's commercial bank account.
Executive KPI Cards	• Total Revenue (Current Year): Net collected. • Outstanding (Due Fees): Total unpaid receivables. • Paid Students: Count of debt-free students. • Owing Students: Count of students with balances.	Provides school proprietresses and board members with an immediate snapshot of school financial health and liquidity.

DASHBOARD MODULE	METRICS / CONTROLS	EXECUTIVE ACTION
Revenue Performance	• 7D: Last 7 days trend. • 30D: 30-day rolling performance. • Term: Full academic term collection cycle.	Area wave chart reveals collection velocity, identifying fee collection peaks during resumption and drop-offs prior to mid-term breaks.
Live Transactions	Real-time incoming payment feed with <i>See All</i> link to chronological audit logs.	Alerts administrators the exact moment a parent completes a fee transfer.

12. Student Analytics & Revenue Trends

Tap **Student Analytics** to inspect institutional census data, payment compliance ratios, and demographic distributions:

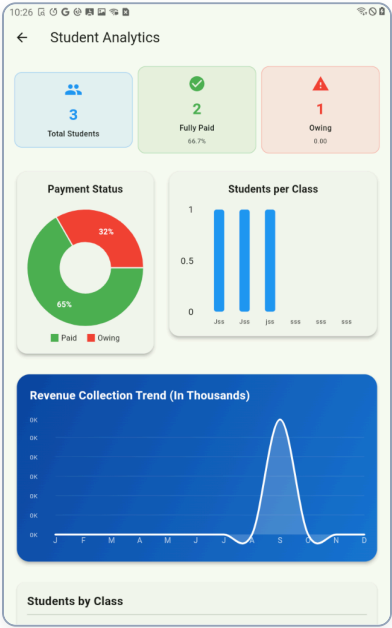

Figure 9: Student Analytics Dashboard — Student census counters, payment ratio donut chart, enrollment by class, and revenue collection cycle curve.

CENSUS COUNTERS & DONUT CHART

Three top KPI cards summarize **Total Students**, **Fully Paid** (with percentage compliance), and **Owing** student count. The color-coded donut chart displays the visual proportion of Paid (Green) vs Owing (Red) across the entire institution.

CLASS DISTRIBUTION & COLLECTION CURVE

The **Students per Class** bar chart graphs enrollment numbers across JSS 1-3 and SSS 1-3. The **Revenue Collection Trend (In Thousands)** wave chart plots annual cash flow peaks from January (J) through December (D), highlighting term resumption surges.

13. Academic Setup, Classes & Rosters

MODULE	CONFIGURATION PARAMETERS & ACTION REQUIRED
Academic Sessions	Define Active Academic Year (e.g. 2026/2027) and Active Term (1st Term).
Classes & Arms	Create class tiers (Creche, Nursery 1-3, Primary 1-6, JSS 1-3, SSS 1-3) and assign arms (e.g. Gold, Diamond).
Payments Tab	Configure Parent Payment Share Mode : choose how family payments divide across children (Auto Share, Lowest to Highest, Highest to Lowest, First Matching Amount, Management Decides).
Student Enrollment	Enter Student Full Name, Admission Number, Class, Gender, Parent/Guardian Phone Number (WhatsApp), and Email.
Teacher Allocations	Register faculty members, assign class master roles, and allocate subject teaching schedules.

14. Result Entry & Digital Grading

Tap **Result Entry** to access the automated examination scoring console with built-in numeric keypad:

Figure 10: Enter Results Screen — Class and subject selectors, active term/year context, score input boxes (CA, Exam, Remarks), dynamic grade calculation, and numeric keypad.

Streamlined Grading Sequence:

1. Select the target **Class** (e.g. *Jss 1*) and **Subject** (e.g. *English*) from the top dropdowns. Active Term and Academic Year display automatically.
2. The student roster renders below. For each student (e.g. *Peter Emmanuel*):
 - Tap the **CA** field to enter Continuous Assessment marks using the on-screen numeric keypad.
 - Tap the **Exam** field to enter Terminal Examination marks.
 - Add personalized qualitative observations in the **Remarks** field.
3. The system instantaneously calculates the combined **Total Score** and evaluates the letter grade with qualitative descriptor (e.g. **Total: 99.0 | Grade: A1 (good)**).
4. Tap the floppy disk **SAVE** icon at the top right to store all class grades locally and sync to the cloud.

15. AI Lesson Notes Curriculum Wizard

Tap **Lesson Notes** to access Invify's automated artificial intelligence curriculum generation engine:

Figure 11: New Lesson Note Generator — Form inputs for Class, Subject, Term, Academic Week, and Lesson Topic with instant AI generation.

Generating Curriculum Lesson Notes:

1. Tap **New Lesson Note**.
2. Under **Curriculum Details**, select the target:
 - **Class:** Primary grade or Secondary arm.
 - **Subject:** Subject curriculum registry.
 - **Term & Week:** Select active term and school calendar week (e.g. *Week 1*).
 - **Lesson Topic:** Enter specific pedagogical topic (e.g. *Introduction to Photosynthesis* or *Algebraic Expressions*).
3. Tap the green **GENERATE LESSON NOTE** button.
4. Invify's AI engine instantly constructs a pedagogical lesson plan containing:
 - Behavioral / Instructional Objectives.
 - Instructional Materials & Real-world Analogies.
 - Step-by-step Classroom Presentation & Teacher-Student Activities.
 - Evaluation Exercises, Homework & Reference Textbooks.
5. Teachers can edit content in the built-in editor before submitting to the Principal or Head of Department (HOD) for digital endorsement.

16. Billing Records & Debt Ledgers

Monitor outstanding school receivables and issue parent payment reminders:

- **Debtors List:** Instant filter listing all students with unpaid tuition balances.
- **Automated Payment Reminders:** Dispatch automated WhatsApp/SMS fee reminders containing the student's unique Virtual Account number and outstanding balance.
- **Installment Billing:** Support flexible partial payments. The student ledger records each deposit and prints an updated balance slip.

17. Thermal Receipt Printers & MPOS Hardware

Bursary Receipt Printer Setup:

1. Power on your 58mm or 80mm Bluetooth/USB thermal printer.
2. Tap **Printer & MPOS** on the dashboard.
3. Tap *Scan Devices*, pair your printer, and tap **Test Print**.
4. Set default print behavior: *Print Dual Receipts* (One copy for parent, one signed copy for school audit archive).

18. Standard Operating Procedures (SOP)

TERM RESUMPTION BURSARY SOP

- Verify active Academic Session and Term in *Academic Setup*.
- Update fee structures for books, tuition, and uniforms in *Fees*.
- Generate term bills using *New Term Bill*. Transmit digital bills with Virtual Account details to parents.

EXAM & REPORT CARD CLOSING SOP

- Confirm all CA and exam scores are locked in *Result Entry*.
- Verify that students with outstanding fees are flagged before report card release.
- Batch-export branded PDF report cards for print or WhatsApp dispatch.

19. Troubleshooting & FAQ

ISSUE OBSERVED	REMEDIATION ACTION
Parent paid via transfer but bill shows unpaid	Check if parent transferred to student's or family's unique Virtual Account. If they transferred to the school's general corporate account, open <i>Billing Records</i> , tap <i>Record Payment</i> , select Bank Transfer, and enter the bank reference code manually.
How do parent virtual accounts work for siblings in different classes?	A single canonical Parent Virtual Account covers all siblings across all classes. When the parent transfers fees to this account, Invify automatically splits the funds among the children per the school's active share mode (e.g. Proportional Auto Share). Any surplus is held in Parent Credit.

ISSUE OBSERVED	REMEDIATION ACTION
What happens if a parent pays more than their children's total debt?	Surplus funds are automatically stored in the family's Parent Credit balance rather than individual child ledgers. Bursars can view this credit anytime in the Parent Profile and map it to future bills using the " <i>Map parent credit to children</i> " button.
How do I change how parent payments are divided between children?	Navigate to Academic Setup > Payments Tab or Settings > School parent payments and select your preferred rule: Auto Share, Lowest to Highest, Highest to Lowest, First Matching Amount, or Management Decides.
A student changed class or arm mid-session	Open <i>Students</i> , select student, tap <i>Edit Profile</i> , update Class/Arm. Historical bills and grades remain preserved.
