FCMB

SPEAKER: OLUWELE TEMITOPE

# Smart mPOS & Digital Collections Platform

Integrated Merchant Business Management, Invoicing & Field Payment Acceptance.

**Partnership Proposal & Product Demonstration for FCMB Acquiring & Card Services**

Integrated Independent Products & Services (IIPS) • Invify Technologies Limited

Slide 1 of 22 • Welcome & Executive Positioning

www.invify.org • support@iipa.app

# Today's Discussion & Demonstration Flow

**SPEAKER: OLUWELE TEMITOPE**

Structured roadmap for today's session with FCMB leadership

### 1. Merchant Operations

- Core Merchant Problem & Solution Scope
- Live Walkthrough: Educational Billing Workflows
- Fee Setup, Cart Selection & Student Roster

### 2. Hardware & Security

- Decoupled Smart mPOS: Samsung Tab + AISINO VM30
- Dotroid Managed Security & Kiosk Lock
- Fleet Telemetry, Diagnostics & Remote Recovery

### 3. Banking & Partnership

- Double-Entry Ledger & Multi-Channel Clearing
- Reconciliation, Dynamic Virtual Accounts & Payouts
- FCMB Acquiring, TID/MID Provisioning & Pilot Plan

# Who We Are: Integrated Independent Products & Services

**SPEAKER: ARAMIDE ADEBAYO (CEO)**

Bridging daily commercial operations with formal financial infrastructure

### Operational Vision

IIPS created Invify to bridge the divide between business management and digital payment collections. We empower SMEs, schools, and merchants by providing tools that connect every transaction directly to operational records.

### Corporate Credentials

- **Entity:** Integrated Independent Products & Services (IIPS)
- **Brand:** Invify Technologies Limited
- **Address:** 57D TOS Benson Estate, Owutu Agric, Ikorodu, Lagos
- **Digital Hub:** www.invify.org • support@iipa.app

### The Core Belief

*"Payment processing must never live in a vacuum. A payment is simply the final step of a business event. True merchant stickiness occurs when the bank controls the ledger of record, not just the card swipe."*

# The Fundamental Merchant Disconnect

Why traditional standalone payment terminals fail modern businesses

**SPEAKER: ARAMIDE ADEBAYO (CEO)**

### Traditional Isolated POS

Shows: ₦150,000 APPROVED - AUTH: 893201

### The Invify Connected Model

Shows: INV-2026924-439 paid in full for Pelumi Dan.

- **Unknown:** Which student or customer made the payment?
- **Unknown:** Did this cover 1st Term Tuition, Books, or Uniforms?
- **Unknown:** What is the outstanding term balance?
- **Result:** Hours wasted manually matching paper slips and bank SMS alerts.

- **Recorded:** Monday Wears + Sport Wears + Science Books.
- **Updated:** Student balance immediately set to ₦0.00 owing.
- **Reconciled:** Logged into internal double-entry ledger instantly.
- **Result:** Real-time financial clarity for proprietor and bank.

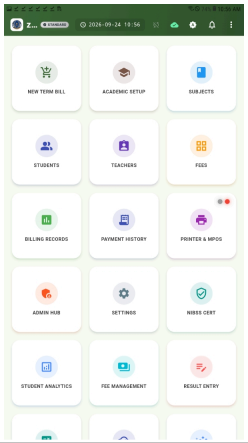

# Invify Platform at a Glance

Touch-optimized operational dashboard engineered for high-density environments

**SPEAKER: SALIU SHERIFFDEEN**

### Comprehensive Module Suite

- **Academic Management:** Rosters, Setup, Classes & Subjects.
- **Billing Engine:** Itemized Carts, Discounts & Term Invoicing.
- **Collections & Receipts:** Multi-channel acceptance & thermal printing.
- **Reconciliation:** Automated ledger cross-matching & requery.

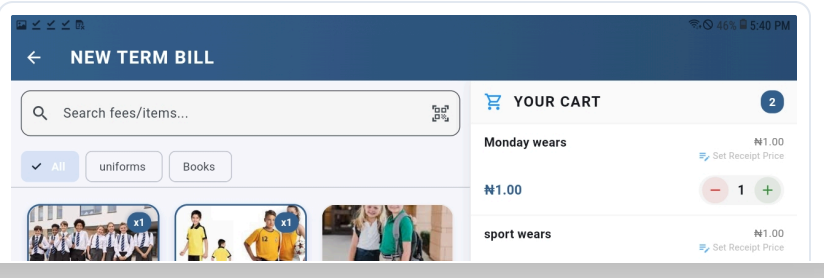

# Primary Use Case: Educational Billing & Cart Building

**SPEAKER: SALIU SHERIFFDEEN**

Intuitive billing workflows linking catalog items directly to student profiles

### Dynamic Checkout Workflow

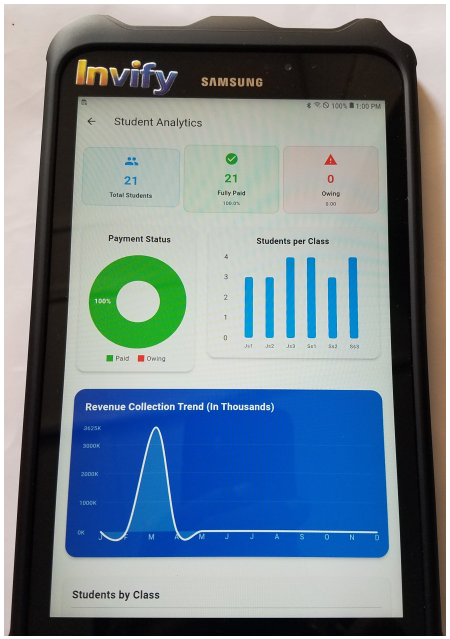

- **Visual Catalog:** Itemized fee categories for Uniforms, Books, Tuition.
- **Live Cart:** Real-time subtotal, configurable tax, and discount adjustments.
- **Student Binding:** Direct lookup from school roster or

# Cohort Visibility & Executive Student Analytics

SPEAKER: SALIU SHERIFFDEEN

Proprietor-level insight into collections, defaults, and term performance

| 21 | 100% | 0 |
|---|---|---|
| STUDENTS | FULLY PAID | OWING |

### Executive Monitoring

- **Cohort Breakdown:** Real-time payment compliance across JSS1 through SSS3.
- **Collection Trajectory:** Historical velocity tracking identifying fee recovery peaks.
- **Audit Defense:** Direct access to fully paid vs. outstanding student profiles.

# Cross-Sector Scalability: Retail & Service Hubs

**SPEAKER: SALIU SHERIFFDEEN**

Modular framework extending effortlessly to retail bars, restaurants, and artisans

### 1. Educational Hubs

- Tuition & Term Fee Tracking
- Uniform & Book Bundling
- Parent & Student Rosters
- Automated Terminal Receipts

### 2. Retail & Hospitality

- Live Inventory Tracking
- Barcode / SKU Sales Support
- Table / Counter Billing
- **Pilot:** Odies Bar, Ikorodu (v1.0)

### 3. Service Artisans

- Job Cards & Work Orders
- Part Payment & Deposits
- Direct Bank Transfers
- Customer Repair History

# Smart mPOS: The Coordinated Hardware Trio

Combining enterprise touchscreen interactions with certified PIN pad acceptance

**SPEAKER: ADEKUNLE MATTHEW**

## The Tripartite Hardware Kit

- **1. Samsung Enterprise Tablet:** Large touchscreen running full Invify operations, stock, and billing.
- **2. AISINO VM30 mPOS:** Dedicated Vanstone PCI-PTS certified cryptographic reader for EMV Chip & PIN.
- **3. Thermal Receipt Printer:** High-speed Bluetooth printer delivering branded customer receipts.

**Eliminates tiny-screen ergonomics while keeping cardholder data isolated inside certified reader firmware.**

# Hardware Interoperability & Field Validation

Rigorous testing across multiple hardware ecosystems and Android OS kernels

**SPEAKER: ADEKUNLE MATTHEW**

**15+**

### DEVICES TESTED

Extensive endurance testing under volatile network conditions.

**6 BRANDS**

### POS EVALUATED

3 actively confirmed lines including Vanstone AISINO series.

**ANDROID 9+**

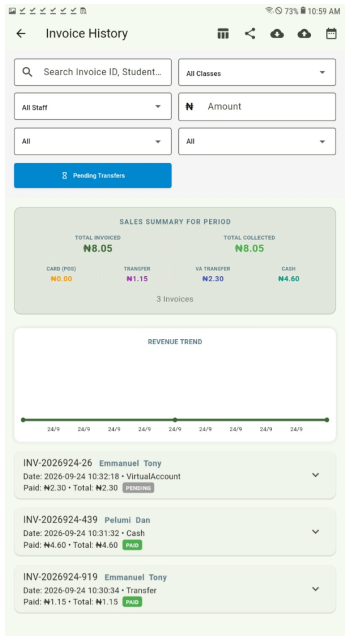

### OS COMPLIANCE

Universal support across modern tablet platforms.

# Multi-Channel Invoicing & Collections Feeds

Unified transaction records mapping Card, Virtual Accounts, and Bank Transfers

**SPEAKER: ADEWUNMI ODULEYE**

### Omni-Channel Ingestion

- **Virtual Accounts:** Auto-matched against dynamic accounts (e.g., INV-2026924-26).
- **Direct Transfer:** Instant logging for direct bank transfers (e.g., INV-2026924-919).
- **Cash Acceptance:** Audited counter recording (e.g., INV-2026924-439).
- **Smart mPOS Card:** EMV Chip & PIN authorization via terminal rails.

### Automated Matching

Every incoming stream automatically resolves pending student balances without operator guesswork.

## Internal Ledger: Single Source of Merchant Truth

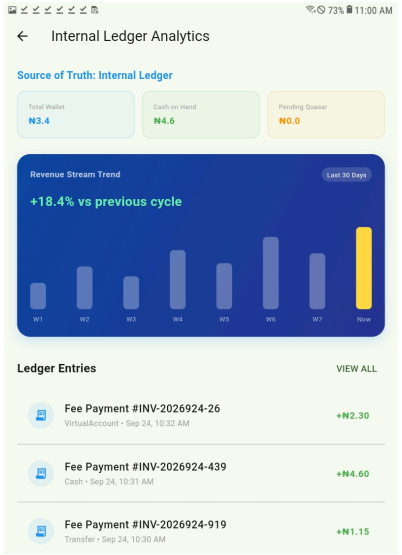

Real-time double-entry record balancing digital collections against cash on hand

**SPEAKER: ADEWUNMI ODULEYE**

### Real-Time Ledger Balances

- **Digital Collections Wallet:** Tracked digital receipts across channels.
- **Cash on Hand:** Physical drawer balance verification.
- **Revenue Velocity:** +18.4% performance tracking against prior cycles.
- **Itemized Ledger Entries:** Cryptographically logged timestamps.

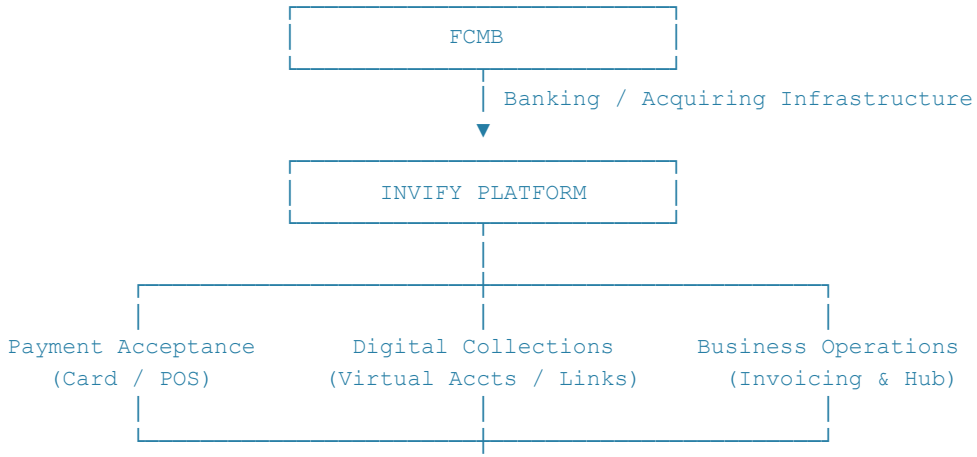

Guarantees exact matching between bank settlement

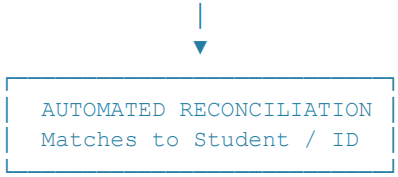

# End-to-End Financial & Settlement Architecture

**SPEAKER: ADEWUNMI ODULEYE**

Clean separation of regulated banking rails and merchant operational context

# Dotroid: Enterprise Managed Device Security Layer

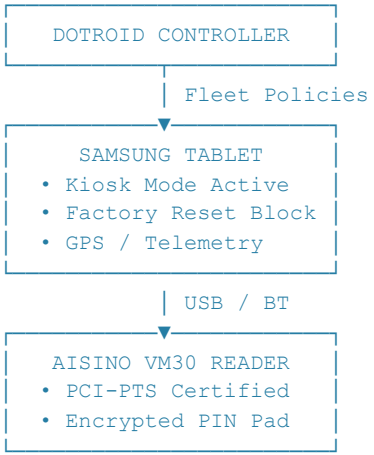

**SPEAKER: ADEKUNLE MATTHEW**

Hardening merchant Android hardware into an uncompromised enterprise asset

## Core Security Capabilities

- **Kiosk Lockdown:** Restricts host device solely to Invify operations.
- **Device Owner Mode:** Blocks factory resets and unauthorized APK sideloading.
- **Fleet Heartbeat:** Real-time battery, network, and hardware telemetry.
- **Remote Recovery:** Geolocation tracking, remote wipe, and OTA updates.

**Ensures that FCMB terminal keys and merchant financial**

software remain secure in the field.

# Strategic Value of the Decoupled Tablet Architecture

SPEAKER: ADEKUNLE MATTHEW

Why separating the workflow screen from the cryptographic PIN pad wins

### 1. Reduced PCI Scope

The tablet never touches plaintext card PIN data. All cryptographic operations remain quarantined inside the AISINO VM30.

### 2. Lower Maintenance Cost

Screen damage or tablet replacement does not require expensive re-keying or cryptographic recertification of the payment device.

### 3. Rich UI Ergonomics

Operators manage complex class rosters, term bills, and inventories on a comfortable screen instead of a cramped 2-inch keypad.

# Market Opportunity & Commercial Strategy

Capturing sticky deposits and acquiring volumes across target sectors

**SPEAKER: OKAFOR HELEN**

## 10,000+

### PRIVATE SCHOOLS

High-density educational clusters in Lagos and major commercial states burdened by manual fee reconciliation.

## 50,000+

### ORGANIZED SMES

Pharmacies, retail stores, and service lounges requiring billing linked to inventory and card collections.

## ₦ BILLIONS

### FLOAT & VOLUMES

Massive recurring seasonal collection float settling directly into FCMB commercial accounts.

# Commercial Architecture & Revenue Mechanics

SPEAKER: OKAFOR HELEN

Sustainable multi-tiered revenue generation for bank and technology provider

## Revenue Streams

- **Hardware Outlay:** Commercial hardware sales/lease of the Smart mPOS kit.
- **Monthly Software SaaS:** Predictable recurring subscription for billing & analytics.
- **Acquiring Transaction Fees:** Standard MSC split on all card and digital transactions.
- **Enterprise Licensing & Support:** Custom SLAs for large educational networks.

## Bank Commercial Alignment

Invify does not compete with FCMB's acquiring revenue. Instead, we drive transaction volume, expand the bank's POS network, and lock in valuable low-cost operational float.

Commercial economics to be structured collaboratively during technical alignment.

# The Strategic Synergy: FCMB × Invify

SPEAKER: OKAFOR HELEN

A balanced partnership creating defensible competitive moats

### FCMB Delivers

- Regulated Banking & Settlement Rails
- Card Acquiring & ISO 8583 Switching Infrastructure
- Terminal Identification (TID) & MID Provisioning
- Institutional Trust & Branch Distribution Network

### Invify Delivers

- Front-End Business Management & Invoicing Software
- Automated Double-Entry Reconciliation Engine
- Dotroid Managed Device & Kiosk Security Layer
- Turnkey Hardware Packaging & Merchant Onboarding

# The Concrete Request to FCMB

Six operational workstreams to enable technical integration and pilot launch

**SPEAKER: OKAFOR HELEN**

### 1. Acquiring Rails

Switch endpoints and acquiring channels to process AISINO VM30 card transactions.

### 2. TID / MID Allocation

Streamlined issuance of terminal and merchant identification profiles.

### 3. Banking APIs

Automated settlement webhooks, transaction requery, and virtual account generation.

### 4. Certification

Technical guidance on terminal key injection and payment compliance protocols.

### 5. Merchant Accounts

Fast-track commercial settlement account onboarding for deployed merchants.

### 6. Joint Pilot

Approval for a controlled initial deployment across selected target schools.

# Phased Pilot Implementation Framework

A structured, low-risk roadmap to full commercial deployment

**SPEAKER: OKAFOR HELEN**

```
PHASE 1: Technical & Key Alignment (Weeks 1–3)
├── Terminal management system (TMS) key injection alignment for AISINO VM30
├── ISO 8583 switch endpoint and requery API sandbox validation
└── Settlement webhook testing and security sign-off

PHASE 2: Controlled Field Pilot (Weeks 4–8)
├── Staged deployment of Smart mPOS kits across selected target schools
├── Real-time monitoring via Dotroid telemetry & fleet heartbeat
└── Operator training, bursar onboarding, and live transaction auditing

PHASE 3: Commercial Review & Scale (Weeks 9–12)
├── Audit of transaction performance, settlement speed, and reconciliation metrics
└── Finalize joint commercial model and initiate nationwide school onboarding
```

# The Multidisciplinary Invify Team

Experienced fintech, embedded systems, and product leaders

**SPEAKER: OKAFOR HELEN**

### Aramide Adebayo

**CEO & ARCHITECT**

Product vision, business architecture, and overall strategy.

### Oluwele Temitope

**OPERATIONS & PARTNERSHIPS**

Stakeholder relations and institutional delivery.

### Saliu Sheriffdeen

**PRODUCT MANAGEMENT**

Merchant UX, school workflows, and application lifecycle.

### Adekunle Matthew

**HARDWARE & SECURITY**

Terminal integration, AISINO drivers, and Dotroid MDM.

### Adewunmi Oduleye

**FINTECH & PAYMENTS**

Payment rails, clearing flows, and internal ledger architecture.

### Okafor Helen

**GROWTH & ALLIANCES**

Commercialization, GTM strategy, and institutional growth.

Invify FCMB

**SPEAKER: OKAFOR HELEN**

# Thank You for Your Time & Strategic Partnership

Together, we can modernize merchant billing and digital payment collections across Nigeria.

### Open for Questions & Live Demo

We invite the FCMB team to test card transactions on the AISINO VM30 and explore the live Invify platform.
